Research Interest

My research centers on **natural language processing for Chinese and Korean**. Coming from a sociology background, I aim to model the identity, discourse, and cultural nuance embedded in text. I am especially interested in **cross-lingual and low-resource NLP**, since Chinese and Korean pose distinct challenges for English-centric models.

Education

- **Soochow University** Taipei, Taiwan
  B.A. in Sociology with a Minor in Data Science (Cumulative GPA: 3.78/4.30) *Sep. 2024 – Jun. 2028 (expected)*
  - B.S. in Interdisciplinary Studies — Computational Social Science and Intelligent Applications
  - Transferred from the Department of History (Sep. 2021 – Jun. 2024, including a one-year leave of absence); GPA includes History coursework

Teaching Experience

- **Teaching and Learning Resources Center, Soochow University** Taipei, Taiwan
  Teaching Assistant, Korean (1) (Instructor: Yun Jeong Yang) *Sep. 2026 – Present*
  - Assist in-class instruction for an introductory Korean language course and support students during class
  - Compile and verify students' participation credits and record them in the course grade book
  - Prepare hands-on teaching materials and handle pre-class logistics

Projects

- **K-pop Pocket: A K-pop Companion Chatbot on LINE*** [Code] [Demo] *2026 – Present*
  LINE chatbot that turns K-pop charts, news, and Korean fan comments into artist reports and recommendations
  - Fine-tuned BAAI/bge-m3 with LoRA on 2,267 synthetic fan queries (generated with Qwen3-4B) for preference-based member recommendation, raising member hit@3 on 238 real fan requests from 19% (keyword baseline) to 28%
  - Added Gemini preference parsing and recommendation reasons grounded in sourced member traits
  - Built an offline pipeline for five-aspect sentiment analysis of Korean YouTube comments (KcELECTRA / Gemini)
  - Deployed on Hugging Face Spaces with Docker, SQLite / Supabase storage, and CI tests

  * Began as a 5-member course project in which I was the sole developer and designer; v2–v5 of the recommender developed independently.

Presentations

- **2026 Taiwan Interdisciplinary Bachelor's Forum (Ministry of Education)** Tainan, Taiwan
  Poster: K-pop Pocket — selected by Soochow University as its sole presenter *Oct. 2026*

Honors and Awards

- **Academic Excellence Award, Soochow University** *Spring 2024 – Spring 2026*
  Five consecutive semesters; awarded to the top 3 students in class each semester
  - Spring 2024 · Dept. of History · dept. 1/44 (top 2.3%) · avg. 93.15/100
  - Fall 2024 · class 2/56, dept. 2/109 (top 1.8%) · avg. 94.00/100
  - Spring 2025 · class 2/54, dept. 2/110 (top 1.8%) · avg. 94.31/100
  - Fall 2025 · class 1/52, dept. 1/105 (top 1.0%) · avg. 94.96/100
  - Spring 2026 · class 3/54, dept. 8/106 (top 7.6%) · avg. 91.46/100
- **First Place, 2026 Soochow University LINE Chatbot Design Competition** *2026*
  Department of Data Science, Soochow University

- **Ministry of Education Scholarship for Outstanding Economically Disadvantaged Students** *2025–26 Academic Year*
- **Qin-Fang Scholarship for Academic Excellence** *Fall 2025*
  Department of Sociology, Soochow University

Skills and Techniques

- **Technical** : Python, SQL, LoRA fine-tuning, Docker
- **Languages** : Mandarin Chinese (native), English, Korean (TOPIK Level 2)
